Easily create professional looking reports for every grading period. The customizable, web-based report card module is suitable for all grade levels—kindergarten through high school. Supports traditional and standards-based report cards. Flexible, printable, and affordable.

**Report cards made easy.** Create report cards with your school logo. Easier to do than spreadsheets or handwritten reports. Less expensive than carbon copy report cards. Includes attendance, comments, and cumulative grades.

**Highly Customizable.** Easily design a template that matches your school's unique report card layout. Our flexible program allows for many formats and grading scales.

**Traditional or Standards-based.** Include multiple assessments and state standards. Flexible enough to mix and match traditional and standards-based grading.

**Comprehensive Student Data.** Effortlessly retrieve important student data: grades, comments, GPA's, honor roll, and academic warning lists.

**Fully integrated with the TeacherEase gradebook.** Teachers simply import grades from their gradebooks and the office sees which report cards are ready for printing.

**Free support.** Our experienced support staff will help design a report card template at no charge.

**Web-based.** Work from any web-enabled computer. No software installation or hardware purchase required. Reliable, secure, and always available.
